

# ENSURE EUDR COMPLIANCE WITH AMSPEC'S EXPERT SERVICES

## ARE YOU READY FOR EUDR COMPLIANCE BY DECEMBER 30, 2024?

The European Union's new Deforestation Regulation (EUDR) is coming into effect, and companies trading in commodities like **cattle, cocoa, coffee, palm oil, rubber, soy, and wood** need to comply. Make sure your products meet the EUDR standards to access the European market.

## WHY EUDR COMPLIANCE MATTERS

From December 30, 2024, all relevant commodities and products must:

- + Be deforestation-free: No deforestation or forest degradation post-December 31, 2020.
- + Comply with local laws: Adherence to environmental, labor, and human rights laws.
- + Have a due diligence statement: Detailed compliance and risk assessment documentation.

## FAILURE TO COMPLY CAN RESULT IN:

- + Fines up to 4% of the company's EU revenue.
- + Confiscation of products and income.
- + Being listed as a non-compliant company.

## OUR COMPREHENSIVE SERVICES

### On-Farm Geolocation and Deforestation Evaluation

- + Accurate geolocation data collection.
- Evaluation of land for deforestation after December 31, 2020.

### Local Law Compliance Audit

- + Comprehensive audits to ensure adherence to local regulations.

### Full Due Diligence Support

- + Risk assessments and mitigation strategies.
- + Compilation of due diligence statements.

### Software-Enabled Traceability

- + State-of-the-art software solutions for tracking and documenting supply chains.

# UNDERSTANDING EUDR: KEY FACTS AND MISCONCEPTIONS

## KEY FACTS ABOUT EUDR

- 1. Wide Range of Products Covered**
  - + Applies to cattle, cocoa, coffee, palm oil, rubber, soy, wood, and derived products.
- 2. Compliance Deadline**
  - + Enforcement begins on December 30, 2024, with extended deadlines for small businesses.
- 3. Legal and Environmental Requirements**
  - + Products must not be sourced from land deforested after December 31, 2020.
  - + Must comply with the legal framework of the production country.

## COMMON MISCONCEPTIONS

### Misconception 1: Compliance Timeline

- Reality: Companies must comply by January 1, 2025, with an 18-month transition period starting June 2023.

### Misconception 2: Deforestation Definition

- Reality: Any forest clearing for agriculture is considered deforestation.

### Misconception 3: Land Titles

- Reality: Farmers need land titles only if required by national laws. Accurate geolocation data is essential.

### Misconception 4: Certification

- Reality: No existing certifications automatically ensure compliance, though they can aid in due diligence.

### Misconception 5: Impact on Smallholders

- Reality: The regulation poses challenges but also offers market opportunities for fairer prices.
